

SHAZAM
CRIT 4/12/17
Chris Velez

projection
television
custom VHS (looping video 52 sec.)
bean bag chair
artist made pedestal w/ LED light/speaker

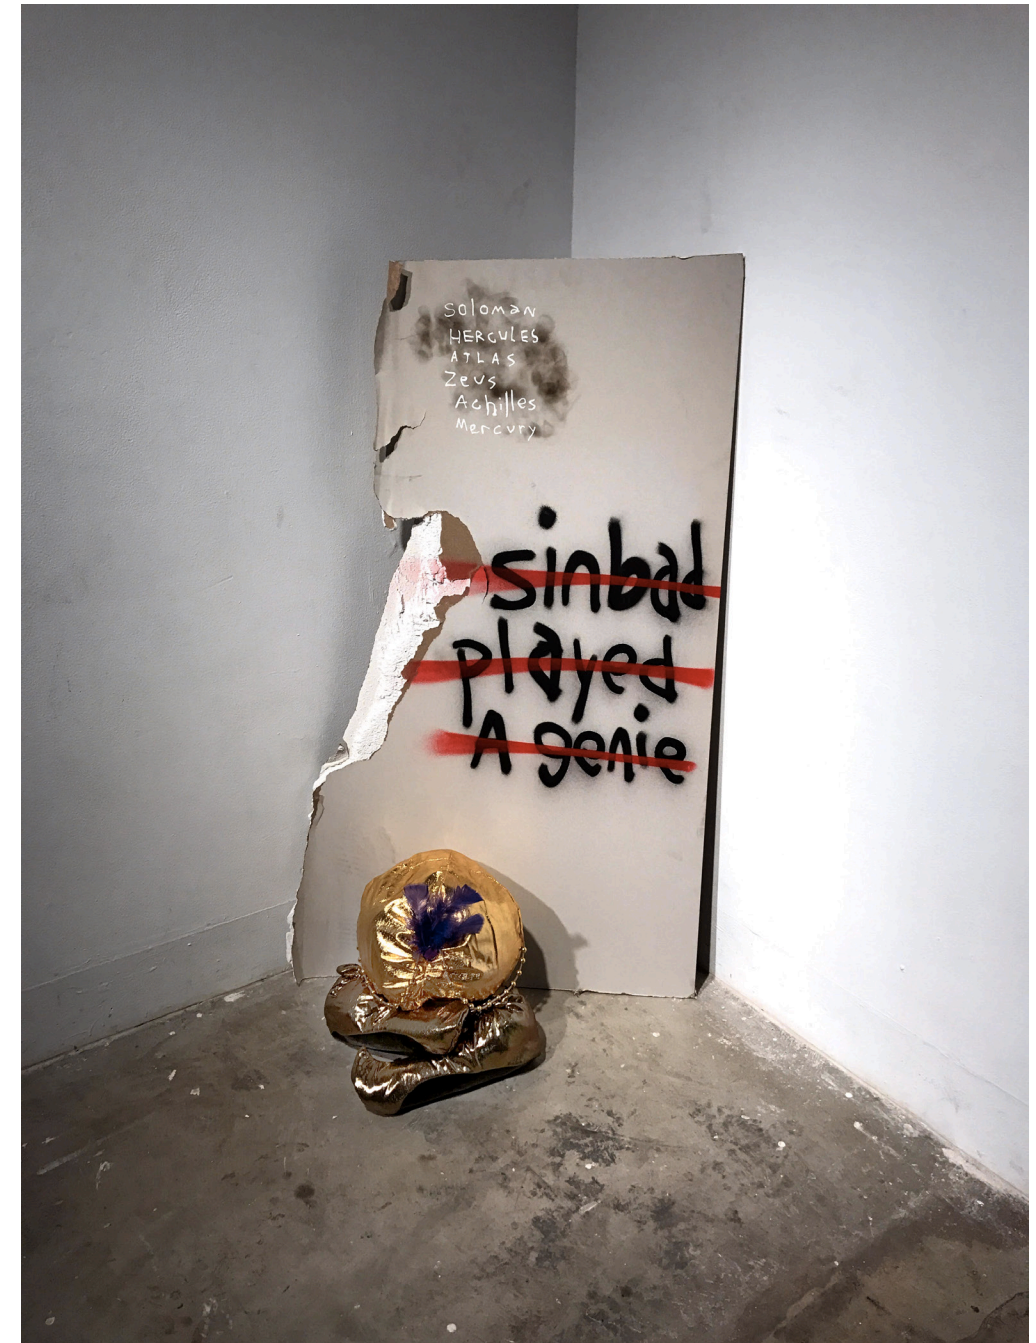

the projection video was made of clips taken from another more informative video I'm making on the subject.
imagery like: film studio intros, commercials from 1992-97, clips from movies; all altered in some way to reveal a looping video underneath. The video underneath is a clip made by collegehumor.com starring Sinbad himself, for April fools (04/20/17) (the same day I released the book at a pop up event in LA).
*the video followed the exact 'script' I was planning on using to reenact scenes on film from people's memories of the film. The details and dialogue in the clip featuring Sinbad quote the same blog/forum posts I collected online to base my script off of. (fun fact I guess)

no sound

the custom VHS played a looped 52 second video
this specific VHS loops for 3hours
which was a trailer for the movie SHAZAM that I made.
